PLI: OUR NEW WALL SHELF

The PLI shelf is available in three lengths: 30 cm, 45 cm, and 60 cm and in a range of colors (yellow Naples, Ash pink, Graphite black, Cream white, Eucalyptus grey, Rock blue).

PLI IS A WALL SHELF IN FOLDED STEEL

To design this new wall shelving system, the designers and engineers rethought the way to create a finished product with minimal intervention and a reduced number of tools.

The design is based on a meticulous management of the proportions of each element. One shelf is composed of one and only one sheet of steel.

The drawing, simple and refined, gives the object its unique character.

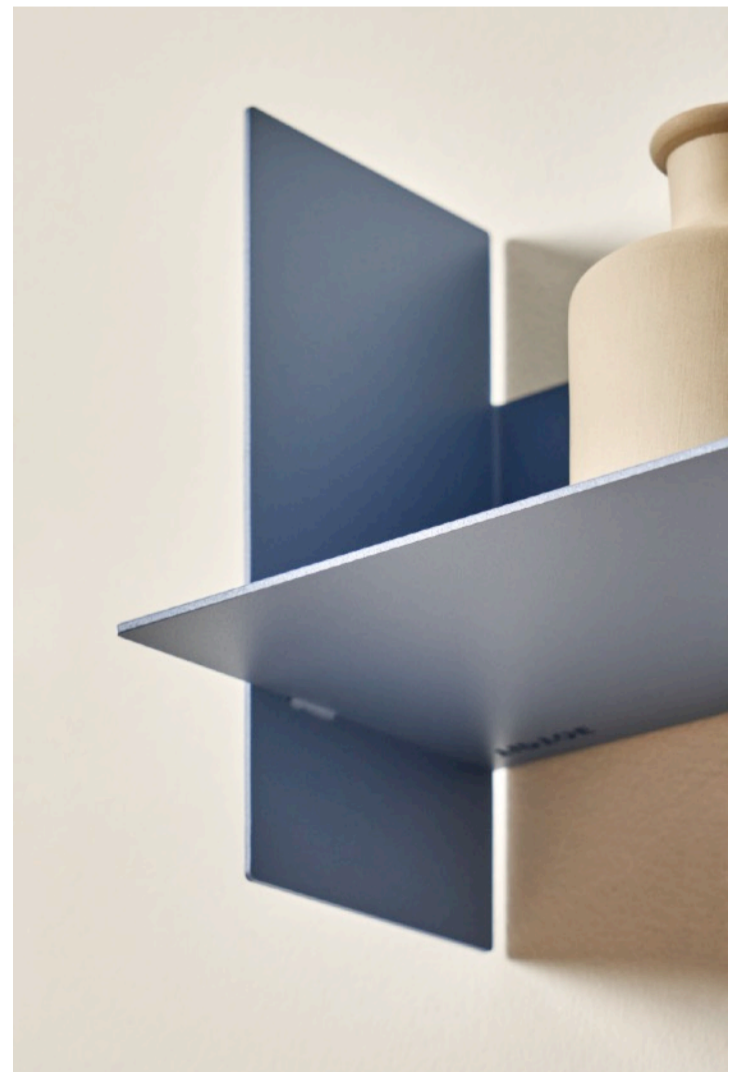

The sheet metal is manufactured, folded, and colored in Europe (Lithuania).

With this new product, TIPTOE strengthens its link between solid industrial know-how and resolutely modern design.

A VARIETY OF CONFIGURATIONS

PLI is a unique product, offering the possibility to create a variety of configurations. PLI can stand alone or be paired with other formats and colors. This new product meets all desires and needs according to the spaces.

Tiptoe

Since its creation in 2015, Tiptoe has brought a fresh vision to the landscape of French design. Over the years, the studio has distinguished itself through exceptional industrial expertise, combining precision machining with innovative design, while exploring a variety of colors and materials in its products creations.

As a mission-driven company and B Corp certified, Tiptoe is also a pioneer in eco-design within the French furniture industry, manufacturing its products in France and Europe using sustainable materials.
